

TITAN VV

Fully concealed hinge side
For Si-line Favorit

Simple Beauty

For contemporary architectural concepts

Design application

Sophisticated high quality solutions: The fully concealed hinge side combines the simplicity and aesthetics of modern architecture, functionality, versatility and easier processing and manufacturing properties. The improved The improvements are striking.

- ▶ Fully concealed hinge side
- ▶ Low clearance above the sash
- ▶ Efficient and easy to work with

Functional, versatile and easy to install

Refined Aesthetics

A clean sleek appearance on the inside and yet the assembly process is made easy. The hinge side consists of just four components, what could be easier simple preparation, simple location and simple attachment.

Clever Construction

Inventive design features enables the easy replacement of the sash with only one person: The entire sash weight is supported from the frame when setting the sash into it. There is a major benefit to not having the cover caps as there are no colour matches, less parts and less assembly providing a cost and time saving benefit.

Security Protection

Rest easy in the knowledge that burglary protection is also well served with Favorit V V. Optional upgrades for window protection to level level 2 (WK2), (BS7950), making this new system a wise and safe choice.

- ▶ For high sash weights
- ▶ Ease of use with a larger opening angle (100°)
- ▶ Long life with self lubricating synthetic polymer bushes
- ▶ No hinge cover caps
- ▶ Hang the sash with just one person
- ▶ Ease of installation with 3D adjustable hinges
- ▶ Burglar protection options to level 2 (WK2)

Concealed hinge side TITAN VV

easy-to-install with aesthetic appeal :
The new fully concealed hinge side from Siegenia-Aubi makes a statement of modernity providing the opportunity for architectural concepts with slim profile designs for light airy rooms. In addition, the highly efficient fabrication process provides evident time and cost saving advantages:

- Efficient in fabrication and installation with components reduced to just four
- Improved installation on site with the easy hanging of the sash by only one person
- Improved tolerance allowances thanks to the slim and clever stay design
- Easily accessible 3D-adjustable hinge components
- Concealed hinge technology does not require cover caps
- Also available for 18 mm euro-rebate systems
- Ideal for commercial and residential building projects
- Impressive with it's high load-bearing capacity, ease of operation and durability
- Burglar-resistant security with various tailored solutions to level 2 (WK2)
