

The global leader in door opening solutions

The Safety Stay is a non-releasable restrictor for awning and casement windows, for those with safety and security in mind. The restrictor provides safe ventilation and deters unlawful entry.

Features

- New York City Housing Authority compliant under HDLD#03-14-2016
- Concealed restrictor provides secure ventilation for both casement and awning applications
- Patented Interlock friction joints allow for application of additional screws
- No sliding elements ensures smooth operation and zero maintenance
- Spacers available for larger window cavities

Specifications

- 130 mm (5") radius length
- Opening of window determined through placement of restrictor
- Part code CP01-6002 (Restrictor R130 SST with NYC Approval Stamp)
- Box quantity 100 (pairs)

Materials & Finishes

- All stainless steel construction
- Composite bearings
