

CREST® Series Sliding Door Handle

ASSA ABLOY

The global leader in
door opening solutions

Appealing to homeowners and architects alike, the CREST® series sliding door handle offers an attractive and contemporary appearance to sliding doors.

The large comfortable grip is ergonomically crafted to maximize performance and minimize effort, while the clean, narrow aesthetics allow for full unobscured sight lines. Available in various configurations, the CREST® series sliding door handle provides a sleek design element to sliding doors large and small.

Features

- Large, small or one piece handle options available
- Exterior key locking option
- For use in single and multi-panel applications
- Designed to fit Interlock's SBML locking system
- Available in all powder coat and architectural finishes

CREST® I

Modern handle set crafted to accent today's large sliding doors

CREST® II

Handle set crafted to accent industry standard sized sliding doors

CREST® Handle Set
